## SUHADA BATAKE

Just like the healthy plants fostered  
by good quality soil,  
healthy skin can be fostered  
by good quality skin care.

The shining light of the sun, pure water and calm wind...

High quality soil that blessed

by grace of nature can nurture healthy plants.

This natural activity is just like daily skin care.

Daily skin care is like the “soil” to “raising” beautiful and healthy skin.

The “soil” is responsible to “raising” beautiful  
and healthy skin by daily skin care.

To cultivate healthy and beautiful skin,  
build the good basic of skin,

find out the potential of your skin by high quality skin care methods.

This is ours, SUHADA BATAKE's, intentions.

## Elegant rose scent ~Skin care filled to the heart~

The scent of a rose is excellent in balancing female hormones and emotions.

## Massage your skin while remove your make-up. It makes your skin soft and tender.

Just like some soft and rich cream melting,  
It mixes up with make-up, and changes into oil.  
Lightly slide your fingers down softly and gently, please enjoy the relaxing massage.  
The slow massage can soften your skin and unravel your tension in your heart.

<Cleansing>  
Massage cleanser

Massage · Cleansing Cream

35g 700yen (Base price)  
120g 2,300yen (Base price)

[ Estimated usage ] About 4g (as much as 2 cherries)

Check  Makeup looks bad on face and your skin is dull  
 The pores are too obvious on face  
 skin has been sagging recently

### SKINCARE TECHNIQUE

#### Step.01

First place it on 5 places  
(forehead, cheeks, nose, chin)  
and let it blend.

Take amount of the cleanser (as  
much as 2 cherries) and make it  
to the whole face. Gently stroke  
slowly from the jaw to the chin.  
Please massage with your index  
finger, middle finger, ring  
finger.

#### Step.02

Massage from the part  
where there is a lot of sebum.

Stroke gently and slowly from  
the side of the nose to the  
forehead ~ temple area.

#### Step.03

Massage the whole face  
when it becomes soft.

Draw a circle outward from the  
side of the eyes along the flow  
of the lymph as shown by the  
arrow, and push the temple  
area.

#### Step.04

Rinse thoroughly  
with lukewarm water.

At last step flow from inside to  
outside with the palm of your  
hand. When the finger feels  
light, rinse thoroughly with  
water or lukewarm water.

If your skin get tired, and you leave stiffness of your face, you will get "dullness" and "sagging" and it will make you looks older than the actual age. In addition, it does not penetrate into the stratum carenum even if it gives cosmetic ingredients to hardened skin. Daily massage is very effective for softening the skin and making it easy to penetrate. Let's improve blood circulation with gentle stimulation, and prepare rhythm of reincarnation of the skin.

## Quick, gentle frothing. Make your skin looks like a newborn.

With plenty of high density bubbles,  
firmly wash off the dirty from every corner of pores.  
While remains the moisture, it removes the old horn which caused dullness  
and makes skin a bright and transparent appearance.

<Facial wash>  
Creamy forma

Facial wash

120g 2,300yen (Base price)

[ Estimated usage ] About 2cm (as big as a cherry)

- Check**
- There are blackheads on the face
  - The skin is hardening
  - The skin is dull and getting aged

### SKINCARE TECHNIQUE

How to use

Take an appropriate amount (about 2 cm), add water or lukewarm little by little, and whisk well.

Put bubbles as to wrap the entire face and wash your face gently by rolling the foam.

Rinse thoroughly with water or lukewarm water.

## Feeling moisture beyond your imagination. The feeling of elasticity of bare skin.

Combine the effects of lotions, essences and emulsion in one.  
Mellow and with a little sticky. At the moment applied to the skin  
will be perfectly blend into every corner of your skin.

<All-in-one lotions>  
Perfect Moist  
Beauty cosmetic liquid

150mL 4800yen(Base price)

[Estimated usage] Approximately 5 mL  
(As large as a 500yen coin)

- Check
- The eye wrinkle is noticeable
  - care about nasolabial folds
  - Perennial Dry skin

### SKINCARE TECHNIQUE

After washing your face in the morning and night,  
take an appropriate amount (500 yen coarse size) in the palm or cotton and fit on the whole face.

Reduction of  
Skin Care Time

The person who is busy can also keep moisture firmly  
without spending time and effort.

Economic

It is not necessary to purchase lotion,  
essences and emulsion, it is economical and can last long.

Reduce skin burden

With one skin care product, we will send the maximum amount of beauty  
ingredients to the skin. You can reduce the burden on your skin by friction.

High cosmetic ingredients,  
functionality

By condensing various cosmetic ingredients,  
you can get high effect easily by one step.

# Special ingredient of moist.

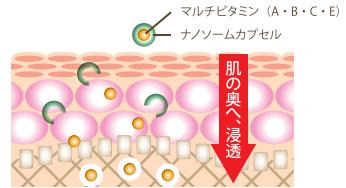

## ① Plant ingredient

### <Bulgarian rose water>

Rose water is extracted from Bulgaria Damascus rose, which has the world's highest quality reputation. The rose water is well known for its anti-allergic, moisturizing, smooth nature. It can activate & relax the skin, smells like fresh flowers and relaxed the skin.

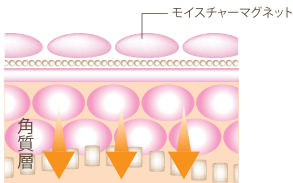

## ② Super penetrating Nanosome prescription

### <Nanosome capsule MV>

Little tiny capsule contains multivitamin (A, B, C, E) squalene. As times goes by, it will penetrate the depths of the skin in every corner. It gives the skin necessary beauty ingredients, especially to the damaged parts.

## ③ Moisturizing ingredients

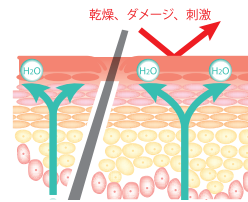

### <Moisture magnet>

The bonding power with skin is so strong that it will not run off even being washed. It creates a moisturizing veil on the skin surface with a very high moisturizing effect.

### <Super hyaluronic acid>

It contains the kind of evolutionary hyaluronic acid which has greatly improved moisturizing function compared to conventional hyaluronic acid. It also attracts moisture in the air to your skin, moisturizing your bare skin. Its water retention ability is said to be twice as high as conventional hyaluronic acid.

## ④ Emollient ingredients

### <Lipidure>

It is said that the moisturizing power is about twice as high as hyaluronic acid. It maintains high moisturizing power even when it is dry. It forms a barrier on the skin surface, not only protects the skin from external stimulus, it also prevents evaporation of moisture.
